What is Your Manure Worth?

1000 Lb. Beef Cow Produces 63 Lbs. / Day
Contains: 0.3 Lbs. N @ $0.28/Lb.*
.12 Lbs. P @ $0.14/Lb.
.26 Lbs. K @ $0.14/Lb.
1Cow = $0.10 Fertilizer/Day
$0.10 X 365 Days = $36.5/Cow/Year
100 CowHerd = $3650/Year
*Assumes A 50% Loss In Nitrogen

In a well managed grazing system, very few nutrients leave the farm
If manure is evenly distributed throughout the paddocks then fertility can
be maintained through natural nutrient recycling
