Anonymous Student Testimonials* to English 600.302, Problems/Methods of Research in Technical Writing

"This was a very useful course. I learned much about how to conduct research in the area of technical communication, and this will benefit me as a graduate student when writing my thesis & as a practitioner of technical writing in the future."

"A good survey of academic/practitioner research."

"I have learned the jargon of research, which is very helpful. I have also improved as a writer. I feel my research skills have improved dramatically and that I have greatly benefited from the course."

(*The above quotes are from three students' evaluations in December, 1999. Allevaluations are available in PUM 4A.)
