### Plant Research Form

**Ecosystem** ________________________

**Team members** __________________________________________

<table>
<thead>
<tr>
<th>Plant Name</th>
<th>Predator</th>
<th>Habitat</th>
<th>How are new plants created?</th>
<th>Diet/Needs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lead plant</td>
<td>Rabbits, deer</td>
<td>Prairies, glades, savannahs,</td>
<td>Self-seeding,</td>
<td>Sun, water, well drained soil</td>
</tr>
</tbody>
</table>

Are there any threats to this population? Threats to this population include habitat loss due to humans using their habitat.

How could you address those threats in the Wildlife Park? I would address that threat by passing a bill in the state government to protect the land the Wildlife Park will be on.
